SINCE 1978

## G-Series Charcoal BBQ Grill

For barbecue purists there is no substitute for a charcoal grill. Charcoal burns at a higher temperature than gas, allowing a skilled grill master to easily sear meat. This 800 sq. in. charcoal grill features sturdy 430-stainless steel construction as well as a temperature gauge and exclusive V-patterned grates. An ergonomically designed handle easily cranks the charcoal tray to your desired height giving you the control you need to adjust the distribution of heat produced from your charcoal briquettes. Including a charcoal grill to your outdoor kitchen is a perfect choice for recipes that require a traditional smoke flavor.

## BBQ18G870

**Dimensions:** 31<sup>3</sup>/<sub>4</sub>"W x 20<sup>7</sup>/<sub>8</sub>"D x 22<sup>7</sup>/<sub>16</sub>"H
